Incubation Cell/ Entrepreneurship Development Cell (2018-19)

Concept

UESCMT have Incubation Cell which aims to develop competencies among young hopeful entrepreneurs. It is a unique and highly flexible combination of business development processes, infrastructure and people, designed to support new and small businesses, helping them survive and grow through complex and vulnerable development phases.

Vision

To make it easy for a budding entrepreneur to start a business with minimal risks.

Mission

To help young people think differently and help them survive and grow in the startup phase at a time when they are most vulnerable

Objective

- To promote new technology, knowledge based startups.
- To create a platform for rapid commercialization of developed technologies.
- To build a vibrant startup ecosystem by networking across academia, financial institutions, industry and other institutions.
- To provide cost-effective value-added services to startups such as mentoring, legal, technical and intellectual property services.
